SUMMARY

Customer Success professional with 3+ years of experience onboarding and supporting enterprise SaaS clients across cloud ERP platforms. Proven in driving smooth go-lives, user training, and post-launch adoption, consistently achieving CSAT above 4.5/5, 20-30% increase in product usage, and strong customer retention through proactive support and cross-functional collaboration.

SKILLS

Product & Technical Knowledge: Cloud SaaS Platforms, ERP Systems, Order-to-Cash (O2C) Workflows, System Integration Testing, API Integrations, Product Configuration, System Usage Analytics, Feature Adoption Tracking.

Tools & Platforms: Jira, Salesforce, Rocketlane, Excel, Google Sheets, Power BI/Tableau, SQL Databases, CRM Systems.

Data & Analytics: SQL, Python, KPI Monitoring, Customer Health Scoring, Root Cause Analysis, Data Validation.

WORK EXPERIENCE

HighRadius Corporation, Hyderabad, India

January 2025 - Present

Consultant II (Customer Success & Product Implementation)

- Led end-to-end implementations of HighRadius AI-powered SaaS platforms for Fortune 2000 clients by coordinating requirements, configuration, testing, and go-live activities, achieving 100% on-time launches with zero critical issues.
- Delivered product training and enablement programs by creating tailored training materials and conducting hands-on workshops, resulting in 90%+ product adoption within the first quarter.
- Managed post-launch customer success by monitoring system usage metrics, proactively identifying issues, and coordinating rapid resolutions, consistently achieving customer satisfaction scores above 4.5/5.
- Provided mentorship and technical guidance during live project shadowing, enabling new hires to resolve issues independently and reducing senior consultant dependency by ~20%.

HighRadius Corporation, Hyderabad, India

January 2024 - December 2024

Consultant I (Customer Success & Integration)

- Led ERP migration validation efforts by working with client IT teams to verify legacy-to-target data mappings, transformation rules, and historical data loads, achieving >99% data accuracy across migration cycles.
- Supported cutover and mock migration runs by coordinating freeze windows, dependencies, and rollback plans, ensuring on-time go-live with zero unplanned downtime.
- Tracked, prioritized, and triaged SIT defects using structured logs and severity frameworks, reducing defect backlog by ~30% before UAT start.
- Analyzed post-implementation metrics and customer feedback to validate value outcomes and share insights with Product teams, influencing roadmap decisions across 5+ feature releases.

HighRadius Corporation, Hyderabad, India

July 2022 - December 2023

Data Science Analyst (Customer Insights & Analytics)

- Built predictive models to forecast customer behavior including payment patterns and engagement risk, achieving 15-25% improvement in accuracy and enabling proactive customer success interventions.
- Performed feature engineering and data preprocessing on ERP transactional data, improving model stability and making outputs more interpretable for business stakeholders.
- Executed root cause analysis on underperforming customer segments by combining SQL-based cohort analysis with Python visualizations, driving targeted strategy recommendations adopted by product and operations teams.

EDUCATION

Kalinga Institute of Industrial Technology, KIIT University, India

July 2018 - May 2022

Bachelor of Technology in Information Technology

ACHIEVEMENTS

- **Spot Award (3x)** — Recognized for high-impact customer success contributions and consistent delivery excellence in Q1 2025, Q3 2024, and Q4 2024.
- **Highflyer of the Quarter Award (2022)** — Awarded for exceptional performance, ownership, and cross-functional collaboration.
- **Award of Applause (2024)** — Honored for outstanding client impact, teamwork, and commitment to delivery quality.
- **Project Flash Award (2025)** — Recognized for rapid execution and successful delivery of high-priority, time-sensitive client projects.
